INTRODUCTION TO 1981 DIRECTORY OF COTH MEMBERSHIP

The Council of Teaching Hospitals (COTH) of the Association of American Medical Colleges is pleased to present its thirteenth annual Directory of COTH Membership. In October of 1967 the Council published a 1967-68 membership roster. Since that time, COTH has attempted to provide a comprehensive profile of its members each year.

In order to update the data and information, last fall each administrator was requested to complete a data worksheet for the most recent fiscal year. The only exceptions to the most recent fiscal year basis are house staff statistics, which have been reported as of August, 1980.

A description of the codes used in the Directory follows this introduction. The approvals, facilities and services, and classification codes were excerpted from American Hospital Association, Guide to the Health Care Field. Medical school affiliations were obtained from the Directory of Residency Training Programs, 1980-81. Due appreciation is expressed to the American Hospital Association and the Accreditation Council on Graduate Medical Education for their willingness to grant permission for use of respective data and definitions.

The number of total births appear in parentheses beneath census. Corresponding members and newly elected members are listed at the end of the Directory.

INFORMATION ABOUT THE COUNCIL OF TEACHING HOSPITALS

The Council of Teaching Hospitals (COTH) of the Association of American Medical Colleges was formally established in 1965. Its purpose is to provide representation and services related to the special needs, concerns and opportunities facing major teaching hospitals in the United States. The Council of Teaching Hospitals has input into overall Association policy and direction through two formal bodies: the Executive Council, which includes four members of the COTH Administrative Board, and the AAMC Assembly—the highest legislative body of the AAMC. The following presents information on COTH membership criteria, activities of the AAMC Department of Teaching Hospitals, and participation of COTH members on AAMC committees.

COTH MEMBERSHIP

There are two categories of COTH membership: teaching hospital membership and corresponding membership. Both membership categories require the applicant institution to have a documented affiliation agreement with a medical school accredited by the Liaison Committee on Medical Education and a letter recommending membership from the dean of the affiliated medical school.

Teaching hospital membership is limited to not-for-profit —IRS 501 (C) (3)—and publicly-owned hospitals which sponsor, or significantly participate in, at least four approved, active residency programs. At least two of the approved residency programs must be in the following specialty areas: internal medicine, surgery, obstetrics-gynecology, pediatrics, family practice or psychiatry. Other considerations evaluated in determining a hospital's participation in medical education activities are:

- the availability and activity of undergraduate clerkships;
- the presence of full-time chiefs of service or a director of medical education;
- the number of internship and residency positions in relation to bed size, and the proportion (in full-time equivalents) which are filled, and the proportion which are filled by foreign medical graduates;
- the significance of the hospital's educational programs to the affiliated medical school and the degree of the medical school's involvement in them; and
- the significance of the hospital's financial support for medical education.

In the case of specialty hospitals—such as children's, rehabilitation and psychiatric institutions—the COTH Administrative Board is authorized to make exceptions to the requirement of four residency programs provided that the specialty hospital meets the membership criteria within the framework of the specialized objectives of the hospital.

Teaching hospital members receive the full range of AAMC and Council services and publications. In addition, their COTH erpresentatives are eligible to participate in the

AAMC's governance, organization, and committee structure. Teaching hospital membership dues for 1981-1982 are $2,000 per year. There are presently 410 members of COTH.

Non-profit and governmental hospitals and medical education organizations (e.g., consortia, foundations, federations) not eligible for teaching hospital membership may wish to apply for corresponding membership. Corresponding members are eligible to attend all open AAMC meetings and to receive the following publications: COTH Report; President's Weekly Activities Report; Assembly Memoranda; COTH memoranda; Journal of Medical Education; Survey of House Staff Policy; COTH Executive Salary Survey and other periodic publications and surveys. Corresponding membership dues for 1981-1982 are $680 per year. Hospitals which are eligible for corresponding membership. There are currently 27 corresponding members of COTH.

The criteria set forth to obtain membership in the Council of Teaching Hospitals were established to provide a basis from which hospitals could organize and promote the hospital as an educational institution. Hospitals differ greatly in the extent of their commitment to educational purposes. Membership in COTH-AAMC should not be utilized as a reimbursement category or as an independent element to construct such categories. Additionally, membership should not be employed to classify hospitals in a research study or for administrative purposes unless specific qualifications and/or controls are employed in this analysis.

At least three major dimensions must be considered when attempting to classify or characterize teaching hospitals:

(1) the severity of illness and complexity of diagnosis which patients bring to the hospital;

(2) the comprehensiveness and/or intensiveness of services provided by the hospital; and

(3) the institutional commitment to the incremental costs of providing undergraduate and graduate medical education.

There is a great variation in the extent to which each teaching hospital meets these dimensions. Any attempt to characterize or classify the COTH membership must recognize the limitations of grouping all teaching hospitals based upon their membership in COTH.

DEPARTMENT OF TEACHING HOSPITALS

The Department of Teaching Hospitals is the staff component of the Association of American Medical Colleges (AAMC) responsible for representing the interests and concerns of teaching hospitals in AAMC activities.

The staff of the Department of Teaching Hospitals, who are listed on the inside cover of this directory, would encourage individuals who would like further information on any of its activities to contact us by telephone or in writing.

SURVEYS/PUBLICATIONS

The Department of Teaching Hospitals has five regular publications that are distributed to COTH members at no charge. In addition, the Association, from time to time, publishes special reports on various issues of current interest which are also distributed to COTH members.

The COTH REPORT, which is published ten times a year, reports Washington developments and AAMC activities of concern to COTH members. It also summarizes important findings of studies focusing on current health policy issues. The COTH REPORT is provided at no charge to COTH member hospitals. A subscription fee of $30 is charged to non-COTH members wishing to receive the publication.

The COTH DIRECTORY OF EDUCATIONAL PROGRAMS AND SERVICES is prepared and distributed to all COTH members. The Directory provides a profile of each COTH member hospital, including selected operational and educational program statistics. Questionnaires for the 1981 Directory were mailed in July and September, depending on the individual hospital's fiscal year.

Each year, the Department of Teaching Hospitals publishes the COTH EXECUTIVE SALARY SURVEY which reports information on the salaries of all chief executive officers of COTH member hospitals. The tables in the report present data on salaries, fringe benefits, and hospital compensation policies by hospital ownership, regional location, type of affiliation and bed size. In addition to the chief executive officer salary information, salary figures are presented for department heads and other types of administrative personnel. Distribution of the COTH Executive Salary Survey is limited to COTH chief executive officers. However, COTH Administrative Board policy does permit COTH hospital board members to receive the survey upon request, but the chief executive officer will be informed when a copy has been provided to a Board member.

The COTH SURVEY OF UNIVERSITY OWNED TEACHING HOSPITALS' FINANCIAL AND GENERAL OPERATING DATA is prepared annually for the 64 university-owned hospitals in the nation. Information presented in the tables includes detailed hospital data on hospital income sources, expenses, utilization of services and staffing. Distribution of this report is restricted to those institutions participating in the survey.

For the past twelve years, the COTH SURVEY OF HOUSE STAFF STIPENDS, BENEFITS AND FUNDING has reported the stipends, benefits and funding of house staff at their institutions. Preliminary findings from this survey are published annually in June and a final report is published in the Fall. The tables in the report include data on house staff stipends by hospital region, ownership, bed size and affiliation. Fringe benefits for house staff and sources and amounts of funding per hospital are also presented by these categories. This report is distributed to all

COTH member hospitals. Additional copies may be obtained for $5.00.

In preparation for the 1979 COTH Spring Meeting, the staff prepared a paper, TOWARD A MORE CONTEMPORARY PUBLIC UNDERSTANDING OF THE TEACHING HOSPITAL, describing the evolution and general characteristics of teaching hospitals. A copy of the paper was mailed to all chief executive officers of COTH member hospitals following that meeting. This paper is now in the process of being updated and revised.

The Department of Teaching Hospitals has spent considerable time during the past year following developments in patient case mix reimbursement and applications. Findings have been summarized in DESCRIBING AND PAYING HOSPITALS: DEVELOPMENTS IN PATIENT CASE MIX. The report was sent to COTH member hospitals in June, 1980. Additional copies are available for $3.75.

MEDICAL EDUCATION COSTS IN TEACHING HOSPITALS: AN ANNOTATED BIBLIOGRAPHY provides a comprehensive summary of articles and studies that have been written on the assessment of educational costs in teaching hospitals. Each annotation includes a summary of the objective of the study, the methodology used, and any important findings. A total of 30 studies are reviewed. Copies may be purchased for $3.00.

STUDY OF TEACHING HOSPITALS

The Department of Teaching Hospitals is presently conducting a comprehensive study of 33 COTH member hospitals. Chaired by Mark S. Levitan, Executive Director of the Hospital of the University of Pennsylvania, the AAMC Ad Hoc Committee on the Distinctive Characteristics and Related Costs of Teaching Hospitals is providing guidance to the staff. The study is focusing on the patient case mix, patient services, education, financing and staffing patterns present in teaching hospitals. Preliminary reports for portions of the study are expected to be completed by Summer, 1981. The final report will be distributed to all COTH members.

LEGISLATION AND REGULATION

The Department devotes substantial staff time to Federal legislation and regulation that is of particular concern and interest to teaching hospitals. Specific activities include monitoring, responding to and assessing the impact of: Medicare reimbursement policies, such as routine per diem payment limits under Section 223 and teaching physician payment policies; health planning regulations and a variety of other regulatory issues that arise. The staff also has prepared testimony for Congressional hearings on such issues as price competition, health planning, house staff unionization and financially distressed hospitals. The testimony is usually presented at the hearing by chief executive officers of COTH member hospitals. Copies of the testimony are distributed to all members of COTH.

COTH SPRING MEETING

COTH holds an annual spring meeting for all chief executive officers, who are permitted to bring another representative from their hospital. These two day meetings cover a variety of topics and provide an opportunity for chief executive officers to share ideas and become better acquainted. The Spring Meeting in 1981 will be in Atlanta, May 6-8. The 1982 Spring Meeting is scheduled for May 12-14 in Boston.

COTH OFFICERS AND ADMINISTRATIVE BOARD

The Administrative Board of the Council of Teaching Hospitals meets four times a year and is authorized to conduct business of the Council of Teaching Hospitals between the annual meetings of the membership. There are nine regular members of the Board, each serving a three year term. In addition, the Immediate Past Chairman, the Chairman, the Chairman-Elect and the Secretary are members of the Administrative Board. Members of the Board are listed on Page v, followed by a list of past COTH Chairmen, COTH Committee Appointments and COTH Representatives to the AAMC Assembly.

AFFILIATION BETWEEN HOSPITALS AND MEDICAL SCHOOLS

The type of medical school affiliation is indicated as G (*Graduate Only*), M (*Major*), L (*Limited*), or X (*University Owned Hospital*). The number code following identifies the medical school.

Graduate affiliation with a medical school indicates that the hospital is used by the school for graduate training programs *only*. Thus the *Graduate* designation is used only for hospitals not designated as *Major* or *Limited* and *only* in cases in which one or more of the following arrangements is in effect:

a) The house staff are selected by officials of a medical school department or by a joint committee of the hospital teaching staff and medical school faculty.

b) There is some degree of exchange of residents between this hospital and the principal teaching hospital of the medical school.

c) The medical school faculty (other than the hospital's attending staff) are regularly scheduled to participate in the teaching programs of the hospital.

d) A contractual arrangement (with or without financial commitment) specifies the medical school participation in the organization and supervision of the graduate training program in the hospital.

If the medical school faculty participation in the hospital is limited to an occasional lecture or consultation visit, or if the hospital's residents attend medical school teaching conferences only as visitors, the hospital is not designated as having a graduate affiliation. If the hospital is used for undergraduate clerkship teaching, the medical school affiliation is designated as either *Major* or *Limited*, but not *Graduate*.

Major affiliation signifies that the hospital is an important part of the teaching program of the medical school and is a major unit in the clinical clerkship program and will participate in any graduate medical education programs of the medical school.

Limited affiliation with a medical school indicates that the hospital is used in the school's teaching program only to a limited extent.
